Definitions:

Medical Care includes payments for hospital and physician care, as well as emergency medical transport, rehabilitation, prescriptions, allied health services, medical devices, and insurance claims processing. For fatalities, also include coroner and premature burial costs.

Mental Health Care includes payments for services by psychiatrists, psychologists, social workers, and pastoral counselors. Also includes insurance claims processing.

Future Earnings includes wages, fringe benefits, schoolwork, and housework lost by the injured. This estimate excludes earnings lost by family and friends caring for the injured.

Public Programs include police, fire, paramedic, ambulance, and helicopter transport costs. Social services and victim assistance costs are also included in this category. It excludes mental health services costs.

Property Damage and Loss is the value of property damage and of property taken and not recovered.

Quality of Life places a dollar value on pain, suffering and lost quality of life to the victim and their family. The value is computed from jury awards for pain, suffering, and lost quality of life due to physical injuries and fear. For murders, this value is computed from the amount people routinely spend (in dollars or time) to reduce their risk of death.
