

## State Specific Performance Measures and Priority Needs

Each state develops up to 7 – 10 State Performance Measures and priority needs. The following provides information about the states' selected 2012 injury-related performance measures and priority needs.

### State Performance Measures:

Hawaii has the following injury-related State Performance Measures:

- To reduce the rate of confirmed child abuse/neglect reports per 1,000 for children aged 0-5 years.
- To reduce the percent of teenagers in grades 6 to 8 attending public schools who report bullying is a problem at their school.

### Priority Needs:

Hawaii has the following injury-related priority needs:

- Reduce the rate of child abuse and neglect with special attention on ages 0-5 years.
- Prevent bullying behavior among children with special attention on adolescents age 11-18 years.

This fact sheet presents a cursory review of the injury morbidity and mortality data available for the state. The figures and tables in this fact sheet can help you understand the state's progress in addressing motor vehicle traffic injuries and suicide. To target and address these and other injury issues, it is critical to understand this data. CSN can assist you in conducting detailed data analyses, utilizing surveillance systems, and undertaking needs assessments.
