## Funding:
- Currently funded by HRSA

## Key Data Sources:
- Missouri Information for Community Assessment (MICA)
- US Census Data
Burden:

2004-2010, Missouri
Death Rates per 100,000 Population
Traumatic Brain Injury, All Intents, All Races, All Ethnicities, Both Sexes, All Ages
Annualized Crude Rate for Missouri: 23.36

- The Annualize Crude Rate of those ages 0-24 is: **14.97**

Relevant State Laws:
- Has a Sports Related Concussion law
- Does not require a helmet for bike riders
- Requires all motorcycle riders to use a helmet
- Does not have a TBI waiver program

Programs & Activities:
Has an ABI Program that provides service coordination and rehabilitation services for participants with a TBI. If more funding became available through the Brain Injury Fund we would like to implement a waiver for services but do not have the funding for such now.
DHSS partnered in the development of “Concussion Management The Team Plan” which will be utilized to heighten awareness regarding concussion management across Missouri with the goal of systemic change.

DHSS in collaboration with BIA-MO will be conducting Regional trainings targeting athletic directors, school nurses and other school administrators to increase awareness of concussion management.

DHSS is a member of the Missouri Behavioral Alliance which entails working with service members, veterans, and family members.

DHSS is developing partnerships with University Extension to explore educational opportunities regarding TBI across Missouri.

**Goal**

Improving service delivery and outcomes for children.

Improving awareness of TBI best practice in prevention of TBI in children ages 0-15

Reduce the number of TBI incidents in children ages 0-15 by 2%. DHSS will measure outcomes by using MICA data.
