# **Essentials for Childhood MAKING PREVENTION URGENT**

Sandra Alexander, MEd Joanne Klevens, MD, PhD

Division of Violence Prevention

National Center for Injury Prevention and Control

Centers for Disease Control and Prevention

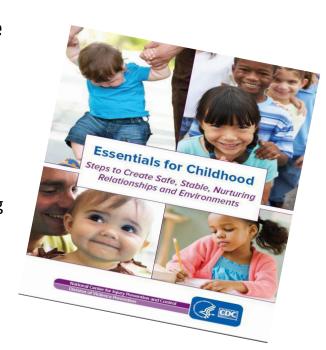

## Assuring safe, stable, nurturing relationships and environments for all children

- ➤ Safe, stable, nurturing relationships and environments are essential to prevent child abuse and neglect and assure children reach their full potential
- CDC's Essentials for Childhood Framework goal areas:
  - Raise Awareness and Commitment to Support Safe, Stable, Nurturing Relationships and Environments
  - Use Data to Inform Action
  - Create the Context for Healthy Children and Families through Norms
     Change and Programs
  - Create the Context for Healthy Children and Families through Policies

### **ESSENTIALS FUNDING INITIATIVE: STATE IMPLEMENTATION**

- CDC Funding 5 State Health Departments
  - California
  - Colorado
  - Massachusetts
  - North Carolina
  - Washington
- 31 Self Supported States participating in initiative in some way
  - Training/technical assistance and meetings also available to self supported states

## Assure Safe, Stable, Nurturing Relationships and Environments through:

☐ Work in	all four goal areas
☐ Focus or	n creating CONTEXT that supports safe, stable, nurturing relationships and environments
	health equity as part of this work: Explore relationships between social and economic that place some children more at risk and lead to inequitable health outcomes
☐ Partners	hips with:
•	State health department
•	Core injury program
•	CBCAP lead agency
•	One or more of national prevention organizations (Prevent Child Abuse America, Children' Trust Fund, or Parents Anonymous)
•	Business
•	Other non-traditional partners like media
	ective Impact Process to help achieve the vision of what we want: safe, stable, nurturing ships and environments for all children

## Achieving Large-Scale Change through Collective Impact Involves Five Key Elements

**Common Agenda** 

- Common understanding of the problem
- Shared vision for change

**Shared Measurement** 

- Collecting data and measuring results
- Focus on performance management
- Shared accountability

Mutually Reinforcing
Activities

- Differentiated approaches
- Willingness to adapt individual activities
- Coordination through joint plan of action

**Continuous Communication** 

- Consistent and open communication
- Focus on building trust

**Backbone Support** 

- Separate organization(s) with staff
- Resources and skills to **convene** and **coordinate** participating organizations

## **State Work to Date**

Landscape Assessment

**Steering Committee** 

Developing Common Vision and Common Agenda

Workgroups

**Common Metrics** 

## **State Successes - Examples**

- ➤ Brought numerous state efforts and many of the "big players" together (i.e., CBCAP, MIECHV, LAUNCH, ECCS, Infant mortality COIIN, PCAA, Children's Trust, Foundations, etc.) and getting all to agree on a shared agenda
- ➤ Getting others to use "safe, stable, nurturing relationships and environments" in their messaging
- ➤ Educating partners about EfC policies, priorities and strategies, resulting in partner efforts to advance EfC strategies and increased funding
- Created workgroups to figure out how to implement the shared agenda
- Reaching out to business as a prevention partner
- > Disseminating the Raising of America to raise awareness and commitment

# Common Agenda Washington State Essentials for Childhood March 2015

#### All children in Washington State thrive in safe, stable, and nurturing relationships and **Vision** environments To promote safe, stable, and nurturing relationships in families, communities, and early learning and school Commitment environments. By 2025 this leads to measurable and significant improvements in children's health, development and education outcomes and eliminating equity gaps. Our initial work focuses primarily on our state's youngest and most vulnerable children and their families. Kindergarten Attachment to Social/emotional Community Domestic/family readiness parents **Shared** support capacity violence ACEs Universal dev. Caregiver/child Parental Measures · Homelessness/ prevalence screening relationship substance housing stability School Abuse/neglect abuse suspensions Educate and motivate key stakeholders on brain science, ACEs, and resilience Support community ownership, impact, and action **Cross** Spark innovative policy and financing solutions Cuttina **Strategies** Transform systems and services to prevent and mitigate the impact of trauma for Change Align systems to enable family-centered service provision Improve data sharing and use across systems Population-**Principles** Bold, **Addresses** Cross-Assets-Evidence-**Preventio** Community **Builds On** Level, Innovative Inequities Sector Based Driven **Existing Work** n Focused Informed Statewide www.doh.wa.gov/efc

## **State Workgroups**

## **Washington**

- Community & stakeholder education & action
- Systems, Services alignment
- Integrating Data Across Systems
- Innovative policy & financing solutions

## **Colorado**

- Family-friendly workplace
- Child care
- Pre-K & full day K
- Social-emotional health

## North Carolina

- Public awareness
- Data
- Child sexual abuse & trafficking prevention
- Evidence-based programs
- Steering committee and Prevention

## **California**

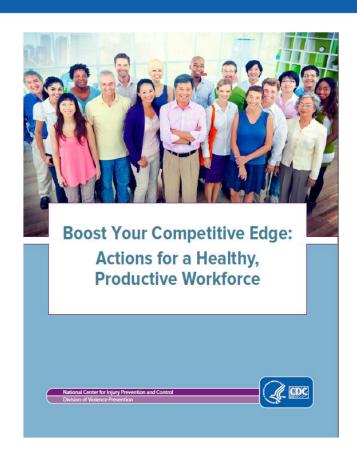

- Programs and Systems Integration
- Community Engagement and Public Awareness
- Public and Private Sector Policy
- Shared Data and Outcomes

## <u>Massachusetts</u>

- Awareness & communications
- Data
- Norms change
- Policy change

## **CDC** Resource for Employers

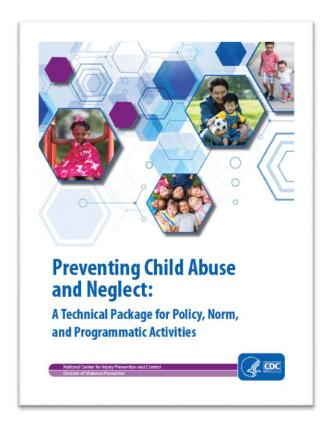

- Model safe, stable, nurturing relationships and environments in your organization
- Create a family-friendly workplace
- Take a comprehensive approach to employee wellness
- Provide parenting resources for employees
- Consider the role of state and local policy in improving employees' and their children's access to safe, stable, nurturing relationships and environments

http://www.cdc.gov/violenceprevention/pdf/essentials\_sup\_3\_employer-role.pdf

## Child Abuse and Neglect Technical Package

- A Technical Package has three components:
  - Strategies direction or actions to achieve the goal of preventing violence
  - Approaches specific ways to advance the strategy
  - Evidence quality of data for each of the approaches in preventing violence or its associated risk factors

http://www.cdc.gov/violenceprevention/pdf/can-prevention-technical-package.pdf

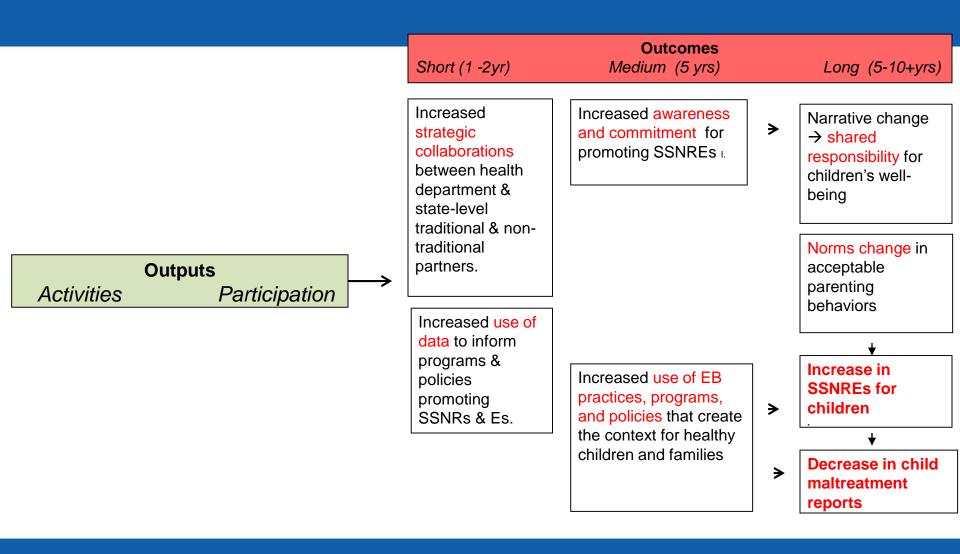

Strategy	Approach
Strengthen economic supports to families	<ul><li>Strengthen household financial security</li><li>Family friendly work policies</li></ul>
Change social norms to support parents and positive parenting	<ul> <li>Public engagement and education campaigns</li> <li>Legislative approaches to reduce corporal punishment</li> </ul>
Provide quality care and education early in life	<ul> <li>Preschool enrichment with family engagement</li> <li>Improved quality of child care through licensing &amp; accreditation</li> </ul>
Enhance parenting skills to promote healthy child development	<ul> <li>Early childhood home visitation</li> <li>Parenting skill and family relationship approaches</li> </ul>
Intervene to lessen harms and prevent future risk	<ul> <li>Enhanced primary care</li> <li>Behavioral parent training programs</li> <li>Treatment to lessen harms of abuse and neglect exposure</li> <li>Treatment to prevent problem behavior and later involvement in violence</li> </ul>

## **Essentials for Childhood Logic Model Pt 1**

#### **Inputs Outputs Activities Participation** CDC Resources: -Funding Coordinate existing and new Leadership Action Team -CDC staff partnerships (including -EfC Framework Collective Impact Team) -EfC supplements -SSNR&Es/ACEs learning lab Identify strategies across sectors to promote Collective Impact Approach SSNREs Identify, coordinate. State Leadership implement, monitor, and Action Team Expertise report on strategies implemented by different Collective Impact Team State Collective Impact sectors to promote SSNREs Team Expertise Workgroups National and Statespecific Data Coordinate data informed improvement processes for Evidence-based multi-sector partners to Practices in CM refine strategies prevention -CDC -Leadership Action Teams Training and TA -Collective Impact Teams

## **Essentials for Childhood Logic Model Pt 2**

## **Challenging Evaluation**

- Complexity of the problem and the intervention
- Many sectors and organizations involved
- Actions are dependent on the moves or actions of other players
- High degree of uncertainty about what will work, in what kind of context, and with whom
- □ Data and feedback will be needed continuously to decide next steps

Solution: state evaluators learned about developmental evaluation and provide timely feedback to team

## **Evaluation ~ "Pilot" of the Framework**

- Feasibility?
- How well is it implemented?
- ☐ Impact?
- Lessons learned to refine the Essentials framework
  - ➤ Right goals or action areas?
  - Collective impact approach?

## **Evaluation of the "Pilot" of the Framework**

### **Data Sources**

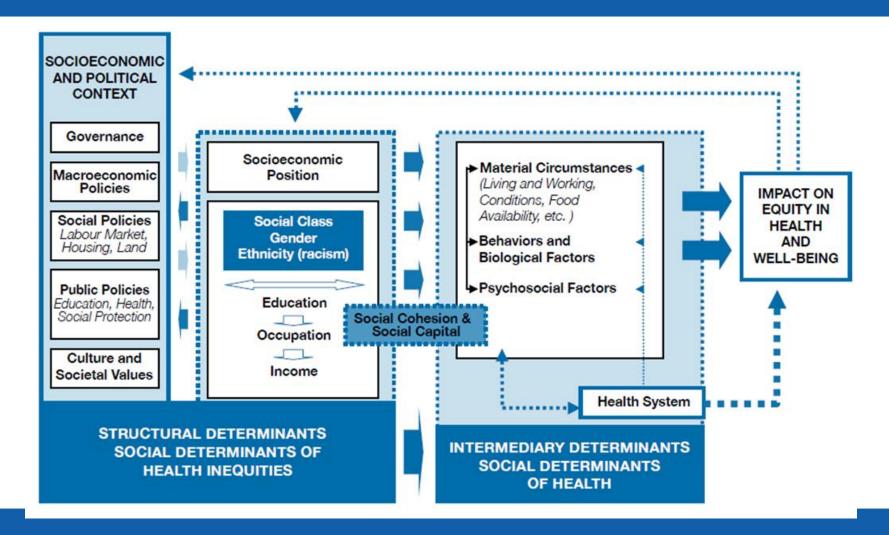

- □ Conference call minutes (funded & self-supported)
- ☐ Grantees' yearly reports
- ☐ Baseline landscape assessment (data available, existing efforts (evidence-based?), their reach or coverage)
- "Institutional commitment" survey administered to grantee and partners at baseline and at the end of the initiative
- □State survey on "public awareness & commitment" and "community norms" at baseline and at the end of the initiative (& compare to national progress)

## **Long-term outcomes**

- ☐ Increase in safe, stable, nurturing relationships and environments
- Decreases in child abuse & neglect & its inequitable burden on low income families

<sup>\*</sup>using available data & for all 50 states

## WHO's Commission on Social Determinants of Health Framework

Commission on Social Determinants of Health. (2010). *A conceptual framework for action on the social determinants of health*. Geneva: World Health Organization.

## SOCIOECONOMIC & POLITICAL CONTEXT

State laws supportive of children & families

#### Macroeconomic policies

- State EITC
- Child Tax Credit

#### **Labor Market Policies**

- Living wages
- Family-friendly work

#### **Housing Policies**

Inclusionary zoning

#### Child care & education

- · No wait lists for child care
- Pre-K coverage
- Fair funding

#### **Social Protection Policies**

TANF eligibility & benefits

#### **Culture and societal value**

- No corporal punishment in schools
- Children not treated as adults

STRUCTURAL DETERMINANTS

Leslie Erdelack, MPH

# Preventing Child Abuse and Neglect to Create a World Where Every Child Can Thrive

Children's Safety Network Webinar May 25, 2016

Leslie Erdelack, MPH Injury Prevention & Behavioral Health

## **About ASTHO**

ASTHO is the national nonprofit organization representing public health agencies in the United States, the U.S. Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ.

ASTHO members formulate and influence sound public health policy and ensure excellence in state-based public health practice.

Primary Prevention

Immunization Services 1

Screening and Treatment for Diseases and Conditions

Individual Clinical Services

Lab Services

Registry Maintenanc

Maternal and Child Health Services

Data Collection, pidemiology, and Surveillance

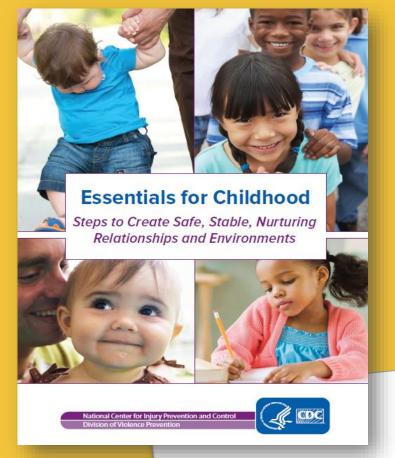

Regulation, Inspection, and Licensing

Environmental Health Activities

# CDC's Essentials for Childhood

- GOAL 1: Raise awareness and commitment to promote safe, stable, nurturing relationships and environments and prevent child maltreatment
- GOAL 2: Use data to inform actions
- GOAL 3: Create the context for healthy children and families through norms
- GOAL 4: Create the context for healthy children and families through policies

## **ASTHO** *Essentials for Childhood* Policy Guide

**Expected publication date: Summer 2016** 

**Economic and Social Supports to Families** 

**Quality Care and Education Early in Life** 

**Supporting Parents and Positive Parenting** 

# Early Experiences Shape Developing Brain Architecture

What is the role of the state health department? Other partners?

# **Example:**CONNECTICUT'S TWO-GENERATIONAL INITIATIVE

- 2015 provision in the state budget
- Approx. \$2.85 million
- School readiness and workforce development pilot program
- Pilot sites in six regions
- PA 12-5, Section 401: "foster family economic selfsufficiency in low-income families by delivering academic and job readiness support services across generations, (parent and child or caregiver), concurrently."
- Interagency workgroup

## **Economic and Social Supports to Families**

Policies that increase economic self-sufficiency and streamline complicated application processes for public assistance programs may reduce parental stress associated with child abuse and neglect.

- Child support passed-through
- Temporary Assistance for Needy Families (TANF) benefits
- Earned Income Tax Credits and Child Tax Credits
- WIC or SNAP (state nutrition assistance programs)
- Housing assistance
- Child care access

## **Quality Care and Education Early in Life**

Policies that promote access to affordable child care allow parents to work and support a family. Quality child care also introduces children to nurturing relationships and stimulating learning opportunities.

- Early Head Start
- Pre-K with parental involvement

Example: North Carolina Head Start/Early Head Start & Division of Social Services, Economic and Family Services partner to incentivize coordination between local Head Start programs and social services.

## **Supporting Parents and Positive Parenting**

Policies that provide employees with the flexibility to spend time away from work caring for a child or other family member without the worry of losing their jobs or income encourage stronger family bonds and increased productivity.

- Family-friendly workplaces
- Paid parental leave and paid sick leave

See: Klevens J, et al. Paid family leave's effect on hospital admissions for pediatric abusive head trauma. *Injury Prevention*. 2016.

http://www.ncbi.nlm.nih.gov/pubmed/26869666

## **Closing Thoughts**

- "Coordination is more than a referral."
- Policies can be a foundation for ongoing collaboration and coordination across sectors.
